

MAIJSN CHARGER

PRODUCT MANUAL

2nd Generation of Intelligent AC Charger

Type	DH-AC0070XG20 Series
Power	7kW
Size	372mm*260mm*83mm
Weight	4.4KG
Installation	Pillar base; Wall mounted
Technical specification	Rated power:7kW ; Input voltage: AC220V±15%; Working frequency: 45~55Hz; Output voltage range: AC220V;Output current range:(0A~32A); Protection level: IP55; Material: PC&ASA
Charging Scene	-Community: underground, ground. -shopping mall -office space -Vehicle operating company

INTRODUCTION

1. This product is a 7 kw intelligent AC charging, using the intelligent controller of charging pile testing, control and protection, which has run condition monitoring, fault monitoring, gauging the billing charge, the charging process function of remote control;
2. Humanization operation: mobile phone APP is used for charging, settlement and other operations, supporting various mobile payment methods;
3. Material reliability: using SMC glass reinforced plastic material, which can resist the complicated climate environment, and the waterproof and dustproof grade reaches IP55.
4. Safety and stability: with lightning protection, overload, short circuit and leakage protection;
5. Strong applicability: it has been successfully charged for most models.
